

Guideline for securing a nasal endotracheal tube

Assemble equipment

Apply Cavilon 'around' nose and cheeks

First tape STEP 1

Start at the **OPPOSITE** side of nose to ETT
Place the **V** at the corner of the nose
Fix the lower part of the trouser leg above the upper lip

First tape STEP 2

Fix the upper part of the trouser leg over the nose
Wind the free end of the trouser leg around the ETT in a downward spiral
Ensure ETT is lying **DOWNWARDS**

Second tape STEP 1

Start at the **same** side of the nose to ETT
Place the **V** at the corner of the nose
Fix the upper part of the trouser leg over the nose

Second tape STEP 2

Wind the lower part of the trouser leg around the ETT in a downward spiral
Ensure ETT is lying **DOWNWARDS**
